## Description

**Learn how to use drawing to soothe your soul with this beginner's guide to drawing for relaxation.**

So many drawing books focus on the result of your drawing, but this fresh approach looks first at the process of drawing as a means to de-stress and unwind. Many people love the idea of drawing but hold themselves back from starting because they are worried about not being good enough.

In this guide for the absolute beginner, artist Zoe Ingram shows you that just drawing very simple lines and shapes can have a powerful meditative effect, and at the same time create beautiful art you can be proud of.

The aim of the techniques and projects in this book is to create art that relaxes both the artist and the viewer of the finished piece. Projects range from simple bookmarks, cards and small wall pieces to larger art pieces that you never thought possible – all done with a focus on relaxation – which is so important in today's fast-paced, increasingly digital world.

Learn why drawing can be so relaxing, what materials you can use, different ways to draw, what subjects you can draw, and create beautiful artworks that will lift the spirits both during the drawing process and beyond, as finished pieces of art.

Knitting is a long-standing tradition in Newfoundland and Labrador. Today, knitting is more of a past time and artistic endeavour, but until recent times knitted garments made up a huge proportion of daily wear in the province. This includes how we dressed children for cold North Atlantic weather.

*Newfoundland Knits for Little Ones* is a collection of fifteen patterns that includes garments and accessories, along with tips and tricks for knitting children's wear. Sizing ranges from newborn to children's large, with bonus adult sizing for select patterns.

Each pattern blends traditional elements with contemporary styles, keeping the needs of babies, toddlers, and children at the heart of the design.
